A Superior Attitude

The longer I live, the more I realize the impact of attitude on life. Attitude, to me, is more important than facts. It is more important than the past, than education, than money, than circumstances, than failures, than success, than what other people think, say or do. It is more important than appearances, giftedness, or skill. It will make or break a company...a school...a home. The remarkable things is that we have a choice everyday regarding the attitude we will embrace for that day. We cannot change our past. We cannot change the fact that people will act in a certain way. We cannot

change the inevitable. The only thing we can do is plan on the one thing we have and that is our superior attitude. I am convinced that life is 10% what happens to me and 90% how I react to it. A superior attitude will produce superior results.
